

# Eco Design – HAHN Solutions

New in our product line:

Transformers fulfilling the new guidelines of “Energy using products” ( **EuP** )!

The transformers of HAHN are „EuP ready“ and perfect for applications of the electric power supply in electrical and electronic household and office equipment with “stand by” and “off” conditions.

Already today the **HAHN safety transformer** can be applied in applications where a **reduced power consumption** of < 1,00 W (until 2012) and < 0,5 W (from to 2013 on) is required according to guideline 2005/32/EG.

We look forward to receive your inquiry.
