RoHS-conformity declaration

Dear Ladies and Gentlemen,

We confirm that our components are free of

Blei (Pb / 0,1 %)
Quecksilber (Hg / 0,1 %)
Cadmium (Cd / 0,01%)
sechswertiges Chrom (Cr6+ / 0,1 %)
polybromiertes Biphenyl (PBB / 0,1 %)
polybromierte Diphenylether (PBDE / 0,1 %)
Decabromdiphenylether (Deca-BDE, Di 2-ethylhexyl, phthalat DEHP / 0,1 %)
Butylbenzylphthalat (BBP / 0,1 %)
Dibutylphthalat (DBP / 0,1 %)
Diisobutylphthalat (DIBP / 0,1 %)

With regard to these prohibited substances, all our products fully comply with the current ROHS Directive 2015/863/EU ⁽¹⁾.

Our products can only contain lead compounds in the solder joint. This is the case if we have to use in the application a high-temperature solder, which is currently excluded from the ban. ⁽²⁾

To this end, on September 8, Commission Delegated Directive (EU) 2025/1802 amending the deadlines for exemption 7a "Lead" in high-melting solders was issued. ⁽³⁾

All the terminal pins of **our products have been galvanically pure tin-plated since 2002**. This ensures that that no contamination can occur from our lead compound in further soldering processes, and thus comply with the mentioned EU directive and can be processed lead-free in further applications.

We hope this information has been helpful and we will be happy to assist you in case of further questions.

With best regards

HAHN GmbH & Co. KG

i.A. Karsten Schmitt
